

## Beckon

Some things weren't meant to be discovered. Three people are each drawn to the small town of Beckon, Wyoming. A young anthropologist researches a Native American legend and makes a terrifying discovery. An ex-cop investigating her cousin's disappearance finds herself in grave peril. And an aging businessman is lured by the promise of a miracle. One by one they discover the town's ghastly secret. The only question is . . . will any of them make it out alive?
