

## A Picture History of Astronomy

Patrick Moore, hosted the monthly television show *The Sky at Night* from 1957 until his death in December 2012. A distinguished and prolific author of more than 70 astronomy books, he served as President of the British Astronomical Association. His contributions to the public understanding of astronomy have been marked by special awards from the Astronomical Society of the Pacific, the Italian Astronomical Society, and the Royal Astronomical Society. Patrick Moore always encouraged anyone with an interest in the night sky to get out and observe. This book documents those observers who kept their eye on the sky throughout history.
