

God Made Color takes your preschool or early elementary age child on a visual color adventure. Along the way they will discover unusual and unique illustrations combining photography in funny and surprising ways. These illustrations will draw your child into the book and encourage them to talk with you, to ask questions and to spark their imaginations. The colors will guide them into learning about the amazing world around us and the awesome God that created this world. After each color is introduced through things the child will recognize and relate to, the colors are then used to illustrate the gospel message. The colors illustrated in God Made Color were originally used in the wordless book and have been used as an evangelism tool for generations. Although the message is not new, God Made Color tells the story in a new and modern way that will draw the child into the colorful intriguing illustrations and while they are there, the rhyming verse will draw them into the greatest message ever told and help you to teach them the concepts of a life in Christ. This book is an amazing tool to have in your home or to be used in your church preschool and childrens ministry.
