

Astronomy has never been a more popular pastime than it is today. The increased availability of less expensive, more powerful, and more sophisticated telescopes has given rise to a new generation of stargazers. And for these beginning astronomers here is the comprehensive book covering everything from the difficult task of selecting an instrument to the equally daunting choices that arise when a telescope is turned to the heavens. Renowned British astronomer and author James Muirden takes the fledgling astronomer by the hand in his new book, offering tips on: * the purchase, assembly, and orientation of your new telescope * how to observe and chart the Sun, Moon, planets, stars and comets

NASA technical paper, The Breathe Book (Breathing, Relaxation, Meditation, Anxiety, Focus, Yoga 1), Lift-and-Learn New Testament Stories, GRACE: Thoughts for Daily Meditation Volume 1, Bible Stories For Kids: The Wall of Jericho - Joshua (AudioVideo FeatherzHouse Bible Series Intermediate - Youth Edition Book 15), Why I Believe in God: Atheism: A Self-Delusion, Gods Master Plan for Your Life: Ten Keys to Fulfilling Your Destiny,
