

22 Dynamic Laws of Church Growth

For too long a time, many church leaders are oblivious of the laws that help the growth of the church, their believe is that growth in the church is only a divine arrangement or the sovereignty of God at work. Of course, growth is divine in origin, nobody can bring growth to the church without the mighty workings of the Holy Spirit of God. Yet, growth cannot happen in the church without some laws being obeyed. This book sets forth all the laws that help to accelerate the dynamic growth of churches in Africa and in other parts of the world. These laws are the outcome of years of research as to the factors that help or hinder the growth of churches. They are not theoretical, but practical laws that work in everyday life of the church. I have presented them in simple, strait-forward and easy - to - understand ways that every church leader can identify with.. You will never regret when you adopt,adapt and adjust to these laws in your ministry.
