

The Tree In Me: Tracing The Fruit back to The Root

We all have attributes about our lives that we would like to change. Additionally, there may be painful past experiences that directly or inadvertently impact the way we move through life. Although perception may not always be equal to the truth, how we perceive ourselves proportionately impact the fruit we produce throughout our lives. The fruit we bare in our everyday existence is what others will recall and say about us long after we are gone. Using this self-assessment tool will allow us to metaphorically compare, discover, and identify the roots that feed our appetites; the trunk that filters our decisions, morals and beliefs; the branches that illustriously categorize and display our personalities; and the fruit that is produced as a result of our everyday existence and tell the world who we are. Take this journey. It will change your life.
