

Playing Chess with God

Never give up hope no matter what situation you face. Remember, God is closer to you than you could ever imagine and His arm is never too short to save. His strength is freely available for those who choose to receive it. In *Playing Chess with God: Overcoming Loss with His Strength*, Greta Kemsley recounts her poignant memories and misery from the time her husband was hospitalized until he died. Although her life seemed shattered, never did her faith in God falter. She was surrounded by her pillars of strength--her father, her daughter, her friends, and her God. Without them, she knew she could never walk a new life today.
