

Love at First Stake (Love Bites Book 1)

Newbie Vampire slayer Savannah Marshall comes from a long line of Slayers. When she lands her first assignment, she doesn't plan to set the world on fire, but she does hope to stake her first assignment; thereby securing her place on the family wall of fame. If not that, at least to make it back at dawn without fangs and a thirst for O-Neg. The one thing she didn't plan on was meeting the vamp of her dreams. Staking Donatello Ravell might not have been the best way to start a relationship, but it sure gets her in more trouble than she bargained for. With more sexual tension than the job description called for, Savannah must team up with the only Vampire capable of making her forget every vow she ever took as a Slayer. But what can she do when she and Donatello are the only ones able to stop an insane vampire from starting the first war between vamps and humans in over a thousand years? Left with only two days to stop him, the pair discover there's more to life than saving the world -- like falling in love. Now, all they have to do is stay alive long enough to make sure their first stake isn't their last.
