

## Love Yourself

This book, Love Yourself The Second Great Commandment part B, is about the personal portion of the Second Great Commandment that contains the hidden command to love yourself. It was written with the objective to assist Christians to activate the untapped love resource that God has put within them. It contains concepts that are applicable in order to meet the requirements of this commandment. There are thought provoking questions designed to refocus efforts in discerning ones identity and how they feels about it. It uses Biblical principles as a foundation. If you missed the picture of Gods love, written in His operating manual, you may require some pointers on how to love yourself. Of course the all inclusive manual, the Holy Bible, would require years of study, while this book will only give you some general guidelines by pointing you in the right direction.
