

# Making Disciples in Africa: Engaging Syncretism in the African Church Through Philosophical Analysis of Worldviews

With two-thirds of sub-Saharan Africa professing to be Christian it should be a concern to all Christians that the biblical worldview has had little impact on the shaping of contemporary African culture. In this book Jack Chalk analyses the belief systems of the worldviews that are based on Christianity and African Traditional Religion. The analysis, conclusion and recommendations are presented with the view to helping the church in Africa deal with syncretism and the effect it has on the beliefs and practices of its members.
