

War Against Cancer

Written on the backdrop of 9/11, this book by a radiation oncologist is about his experiences, observations and conclusions for holistic approach to cancer problem. It is based on his extensive oncology practice covering more than 20000 cancer patients in USA and India over the past 40 odd years. Explains basics of modern methods of surgery, radiation, chemotherapy in addition to ayurveda, homeopathy, nutrition and other complementary methods. Recommendations for reducing side effects of radiation and chemotherapy are given. Cancer is internal terrorism within your own body by your own cells !
