

The Family Library (Harper) (Classic Reprint)

The favourable reception which the volume entitled *Celestial Scenery* has met with from the public, both in Britain and America, has induced the author to extend his survey to other sublime scenes connected with the science of astronomy. The chief object of the work alluded to was to illustrate, more fully than had previously been attempted, the scenes connected with the planetary system. In the present volume, the author has directed the attention of his readers to scenery of a still more elevated and sublime description, connected with the sidereal Heavens. All the facts related to this subject, which can be considered as interesting to general readers, have been particularly detailed, and in such a manner as to be generally comprehensible by those who have little knowledge of mathematical science or the more abstruse parts of astronomy. (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Careful attention has been made to accurately preserve the original format of each page whilst digitally enhancing the aged text. Read books online for free at www.forgottenbooks.org
