

A Light in The Darkness: A Guardian Chronicles Tome

In a world filled with people obsessed with what they can see, there is a realm that operates in the Light and Darkness, unseen by all. A group of young adults embark on a journey to change their town all the while taking part in something larger than anything they could imagine. War rages around them, and battles are fought while they go about their days. Warriors of Light, guided by their actions move to push back the forces of Darkness. Halfway across the country Adam suffers under the heel of those dark forces. Hounded from a young age by malevolent powers unknown and unseen, his decisions are effected more than he could fathom and his future is all but decided. Tonian and his fellow warriors must move within the boundaries set by their Wards to counteract the plans of their sworn enemies, The Fallen. They find in their travels a boy that could play a pivotal role in saving millions but, can he be saved before the Darkness consumes him?
