

A Challenging Affair

A shooting, threats and bad dreams are mixed with love, friendship and mountain climbing; through trials and triumphs, an almost murder, in the end, turns to love and marriage. In a drunken rage, Cam tries to kill his best friend Alex who is glad at first that he gets sent to jail. During a walk down memory lane with a friend, Alex is reminded of her infatuation with Cam. A change of heart leads Alex, with help from friends, to raise some of the money to post Cams bail. As Jairo enters the picture competition with Cam begins over Alex. Through Cams influence, Alexandra breaks up with Jai and Cam strengthens her affections. After a visit from Jai, Alex feels threatened, leading to bad dreams. Shortly after this threat is resolved, Alex learns of new threats coming from the same man: her uncle. Protection is declared by many that love Alexandra, for those encompassed by the threats; making it difficult for her uncle to accomplish his intentions.
