

The Light of the World: The Life and Teachings of Jesus of Nazareth

A unique and fresh work that seeks to present Jesus of Nazareth by his own words as HE intended people to view him and hear him. There are many people who know some facts about Jesus Christ, but there are very few people who have a good and solid understanding of his person and teachings. For example, did you know that Jesus did not teach that he was a sacrifice for peoples sins? As bible religion spreads across the earth like a cancer, fewer and fewer people understand the one who calls himself the Light of the world and the Son of Man. What is Jesus core message? What claims does he make about himself, and can those claims be trusted? Does Jesus give humanity answers to its problems? You will never be able to know the answer to that question unless you read his words yourself. This work contains his words in the four gospels alone with helpful notes to counter the many contemporary religious beliefs which seek to nullify his simple teachings. If you are a skeptic, be a good skeptic and read his words to make a good judgment - dont rely on others. If it is possible his words and story could have been recorded accurately and preserved - and it is possible - what have you got to lose by listening to him? If you are a physicalist - one who believes the human experience can be satisfactorily explained by molecules and proteins - are you 100% certain that belief best explains your personal human experience? To use a computer as an analogy, the hardware cannot account for, nor did it create, the software. In the same manner, the physical human body cannot account for our sentience, abstract reasoning, nor the moral compass that we posses. If call yourself a christian or believe you are somehow his, this book might provide some critical information that will significantly change your perspective on his person and teachings. As the church experience gets more and more like regular western

entertainment, perhaps you can see the negative trend there and search for answers as to how to escape. Tired of the fast food culture of the western world? Can you see the shallowness and emptiness of the please myself as my top principle of life philosophy? Tired of the un-reasoning culture of much of the eastern world? Hopefully, perhaps even tired of the world? Out of all the great works of literature, are not the words, teachings and story of the person who is arguably one of the most influential and controversial figures in history, worth reading and considering? There is a single great adventure that waits for those with eyes to see. Just know, it is not an easy adventure, but rather a very difficult one, but the journey and results are more meaningful and satisfying than the greatest adventures the earth can provide. It all starts with giving Jesus of Nazareth your sincere and undivided attention. May this work - which contains his words, story and teachings - be the beginning of that journey. Enjoy!
