

Tiara

The future of a nation is at stake as two unlikely allies cross paths and enter a deadly race against time. It is 1998 and the peace talks between Great Britain and Northern Ireland are in danger of falling apart. Jennifer, a dedicated civil-rights activist and Princess of Edinburgh, is deeply involved in the process. But the evening before the negotiations are set to begin, Jennifer is kidnapped. The Princess's fate attracts the attention of several international organizations, including the IRA, MI6, and the CIA. While Jennifer finds herself the mistreated prize in an age-old war, none can expect what happens when The Golden Terror an international assassin of Irish descent takes an interest. Blurring the lines between good and evil, Tiara is an action-packed and hard-hitting reimagining of historical events that would forever shape the future two nations.
